DETAILED ACTION

This office action is in response to the election of claims 79-115, filed July 8, 2005. The amendment filed March 24, 2005, is acknowledged. The amendments to the specification filed March 24, 2005 are acknowledged. It is noted that claims 1-78 have been withdrawn, but must be formally canceled by Examiner's Amendment. Accordingly, claims 79-115 are pending and have been allowed.

Election/Restrictions

1. Claims 116-154 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected group, there being no allowable generic or linking claim. Election was made **without** traverse in the reply filed on July 8, 2005
2. This application is in condition for allowance except for the presence of claims 116-154 non-elected without traverse. Accordingly, claims 116-154 have been cancelled.

Allowable Subject Matter

3. Claims 79-115 are allowed. The following is an examiner's statement of reasons for allowance: the relevant prior art of record does not teach or reasonably suggest the further limitation of having first and second *flared waveguides with a hyperbolically curved* sidewall (independent claim 79). The closest prior art of record (Isobe et al. U.S.P. No. 5,208,800) does not teach or reasonably suggest these further limitations in addition to, in particular, the non-planar port that is not in the plane of the substrate.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue

fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Inventorship

4. This application currently names joint inventors. In considering patentability of the claims under 35 U.S.C. 103(a), the examiner presumes that the subject matter of the various claims was commonly owned at the time any inventions covered therein were made absent any evidence to the contrary. Applicant is advised of the obligation under 37 CFR 1.56 to point out the inventor and invention dates of each claim that was not commonly owned at the time a later invention was made in order for the examiner to consider the applicability of 35 U.S.C. 103(c) and potential 35 U.S.C. 102(e), (f) or (g) prior art under 35 U.S.C. 103(a).

Conclusion

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure, with respect to the state of the art of grating couplers using substrates:

-US 2002/0008215 A1 to Evans.

-Also see US 2003/0235370 A1 to Taillaert et al., but it is noted that the effective US filing date of April 10, 2003 *is not valid* for a prior art reference to this application.

EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Claims 1-78 (Canceled).

Claims 116-154 (Canceled).
